To: The Commission
ELECTRONICALLY SUBMITTED

MOTION TO ACCEPT
LATE-FILED COMMENTS

Saga Quad States Communications, LLC (“Saga”), licensee of KOAM-DT, Pittsburg, Kansas, respectfully seeks leave to late-file comments on the *Eleventh Further Notice of Proposed Rulemaking*, FCC 06-150, released on October 20, 2006 (“*Further Notice*”). Due to administrative oversight, comments were not submitted. Saga’s management recently realized that no comments were filed and seeks to bring the matters to the Commission’s attention if there is still time to make changes to the Report and Order the staff is drafting. Unfortunately, the oversight was not detected until after the date for comments had elapsed.

Accordingly, Saga hereby requests a waiver of §§1.415(b) and (d) of the Commission’s Rules to permit the filing of its “Comments.”

At paragraph 16 of the *Further Notice*, the Commission specifically requested

“that licensees review the accuracy of their information contained in the proposed DTV Table and Appendix B . . . and comment on any inaccuracies or discrepancies.” Saga has noted that the parameters in Appendix B will not permit KOAM-DT to replicate its analog Grade B service from KOAM-TV. It is, therefore, very important that this information be taken into consideration in this proceeding, so that the Commission can finalize the DTV Table of Allotments in a manner that will permit KOAM-DT to replicate its Grade B signal, to the greatest extent possible.

Given that the nature of the material submitted has a direct bearing on the coverage area of KOAM-DT and the population to be served thereby, the public interest indicates that the information submitted be accepted and considered in this proceeding.

In view of the foregoing, it is respectfully requested that the Commission waive §§1.415(b) and (d) of its rules, to accept and consider the “Comments of Saga Quad States Communications, LLC” submitted contemporaneously herewith.

Respectfully submitted,

SAGA QUAD STATES
COMMUNICATIONS, LLC
